

the
Portable Protector SEAT Jr.

Protect your family with *PEACE OF MIND EVERY TIME*, when using the **Portable Protector Seat Jr.** away from home. Even the cleanest public restroom from schools to hospitals, each may have hidden bacteria, not visible to the eye. Bring the maximum protection with you and relax with the **Portable Protector Seat**.

Tissue seat liners are provided by a few facilities but not all, but how do they compare to your own personal, compact and easy to use **Portable Protector Seat**? It fits conveniently over the existing facility seat and is raised 3 inches above with anti bacterial, feet that put distance between you, your children, your family and germs!

Everyday Use for Adults

Public facilities are only as clean as they appear, but microbial germs are smaller than the human eye can see. Do you really have time to clean every public restroom that you visit? Don't take any chance get your Portable Protector Seat today and protect your family and yourself when using the restroom away from home. Peace of Mind Everytime. Take a look at the diagram to the right. This is an easy explanation of use and convenient installation of the Portable Protector Seat.

Our new Portable Protector Seat Jr. Lillypad is also available for your little ones. Perfect for everyday use at school or on vacation at Disney World!!!! The Portable Protector Seat fits into a snug sleeve and tucks discretely into your briefcase, laptop case or grab one of our customized back packs with built in compartment that keeps your Portable Protector Seat separately.
